

# NATIV LODGE & SPA

## ECO-LODGE

Assessed in August 2017 by  
[Mauritius Conscious Travel](#)

9-room Eco-Lodge designed, managed and run by Mauritians.  
Family run business.

The site on which the Lodge is located used to be a lime kiln and the rooms are built with the rocks buried after its demolition.

All of their tables, sunbeds, sofas, lamps and other decor are built with recycled materials such as pallets and baskets.

Propose non-motorized activities to discover Mauritius such as kayaking, fishing, visiting a market, kite surfing and hiking.

Use solar panels to heat water.

Offer typical Mauritian dishes with a meaningful explanation, encouraging appreciation of local gastronomy.

Support local artists and talent by organizing outdoors concerts once a month.

Advocate for Mauritius' public beaches by hosting meetings and events against the development of hoarding foreign hotels.
