

SCULPTURE VIVANTE

TREKKING & PERMACULTURE

Assessed in September 2018 by
[Mauritius Conscious Travel](#)

Local founder & owner, family-owned building

Excursions aim to raise awareness on Mauritius' environment and its threat: few endemic species left, importance of the dunes system, consequences of unrespectful agriculture.

Limit group size to 6 people to lessen impact and maximize safety.

Offers fresh and organic lunch and refreshments made with ingredients from the garden. Refreshments are offered in reusable cups to reduce plastic waste.

Waste is collected, segregated. Food waste is composted for the garden. Collects rain water for the garden.

Uses of solar panel, energy saving lights. Seperate batteries from solar panels.

Plant endemic flora and apply permaculture principles. Organizes workshop to introduce permaculture to local farmers.
